Hardy AMARYLLIS or Magic Lily

B2088—In the spring, it throws out a cluster of leaves, which die down in early summer. Then stems pop out of the bare ground, grow 2 to 3 ft. high, each bearing several large, lilac-pink lilies. Large flowering bulbs, \$1.00 each; 3 for \$2.75, ppd.

Creeping PHLOX

(Phlox Subulata) Sometimes called Moss Pink

Moss-like foliage stays green all winter. A blanket of bright flowers in spring. Thrive in full sun or partial shade.

B1673—Brilliant Red. A new, brighter red.

B1674—Emerald Gem. The new and better pink.

B1672—Blue Fairy. Reddish-green foliage; light blue flowers.

B1675—Snow Maiden. Dainty foliage; snowflake-like flowers.

39c each; 2 for 65c; 3 for 89c, postpaid.

B3210X—1 each of above 4 for only 98c, postpaid.

African VIOLETS

◀ **Lady Geneva.** Violet Blue with a twinkling pure white edge. Good grower. Patented, so cannot be grown and sold except under license.

2N209—\$1.50 each, 3 for \$4.19, postpaid.

African Violets are the perfect house plant. Easy to care for (we send directions), bloom year around. Fine for North windows. Give them light but not direct sun:

2N200—Blue Boy

2N207—White Queen

2N206—Pink Beauty

2N208—Redhead (not true red, but close). 98c each; 3 for \$2.79, postpaid.

COLLECTION—2N509X—1 each of above 4 (not including Lady Geneva) for \$3.69 postpaid.

Henry Field's Famous RAINBOW COLLECTION of DARWIN TULIPS

20 Assorted Bulbs for Only \$1.00 Postpaid

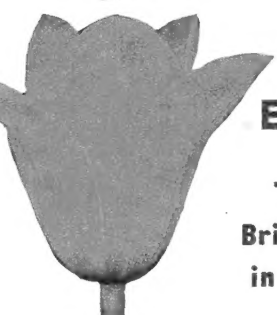

LARGER BULBS—MORE OF THEM—ALL NAMED VARIETIES!
B7002X—20 for \$1.00 postpaid. 2 collections (40 bulbs) for \$1.95 postpaid. 100 bulbs for \$4.79 postpaid.

For many years Henry Field's famous "Rainbow Tulip Collection" has been a big bargain at 15 for \$1.00. Now, we can give you 20 bulbs for only \$1.00.

And larger bulbs. 10 to 11 centimeter size. Used to be 9 to 10 centimeters (in plain English, that's about 4" around). More bulbs, larger bulbs—still only \$1.00. Now these are not just any old mixed bulbs swept up off the floor or out of the corners. We buy 20 named varieties of genuine imported Holland-grown tulips and mix them right here in the seed house. Drop in at bulb time and we'll show you. We always figured it takes plenty of tulips to make a good show so we try to have a real reasonable offer, particularly for the folks who need it—all the rest of you are welcome too. Please order early because we usually sell out quick on this collection.

"GIANT" RAINBOW COLLECTION

B7065X—These are the GIANT sized bulbs, all named varieties that we have mixed ourselves. They will produce amazing large flowers next spring. All colors. 12 for 95c; 25 for \$1.60; 100 for \$6.25; all postpaid.

RED EMPEROR

The Most Brilliant Tulip in the World

Big, Flaming Red, and Early

B6116—This tulip has everything. It is the earliest to bloom, has the most brilliant color and is the largest in size of all the tulips. If you have grown them, you know. Plant on each side of the front steps or a whole bed of them. You'll want them where everyone can see them. 15c each; 3 for 42c; 6 for 78c; 12 for \$1.45; 25 for \$2.75, postpaid.

EARLY FLOWERING TULIPS

Special Mixture—B6272—Special named variety mixture of Early Flowering Tulips, at a special price. 6 for 44c; 12 for 79c; 25 for \$1.49; 100 for \$5.50, postpaid.

These greatly improved tulips contain a great variety of clear bright colors. Flowers look like pretty pointed caps the Dutch girls wear. Medium height stems.

B6254—CRIMSON BRILLIANT—Very bright and showy. Long stems.

B6262—GENERAL DE WET—Exquisite orange.

B6266—IBIS—Splendid deep rose.

B6276—OLYMPIADE—Golden yellow.

B6282—SUNBURST—Orange-yellow, flame red.

B6291—WHITE HAWK—Pure white.

Prices: 6 for 59c; 12 for 98c; 25 for \$1.79; 100 for \$6.50, all postpaid.

NAMED VARIETY COLLECTION

B7175X—3 each of above 6 varieties, 18 bulbs in all for only \$1.39, postpaid.

BUNCH FLOWERED TULIP

A Tulip that Produces 2 to 5 Blossoms from Every Stem

A SCARLET BOUQUET IN EVERY BULB

Each bulb throws two to five gleaming blossoms from one stem. This is the one that probably neither you nor your neighbors have grown before. You'll like it.

B6030—FUSILIER—Brilliant orange red. Each bulb bears a whole cluster of blossoms instead of just one. We used to carry the light pink variety before the war and sure are glad to get the red one instead for you now because it is far more beautiful and showy. 3 for 60c; 6 for 98c; 12 for \$1.49, postpaid.

DARWIN TULIPS ➔

Most Popular of All Tulips

Darwins have long been the most popular tulips, probably because of their bright, cheerful colors and because their stems are just about the right length for all purposes (about 2 feet in a normal season). The Darwins are illustrated at the right and priced below. We have tried to choose for you the 12 very best of all the Darwin varieties. Not the most expensive, but the best. Postpaid prices:

B6112—QUEEN OF THE NORTH. 6 for 69c; 12 for \$1.14; 25 for \$2.15; 100 for \$7.49.

B6120—SCOTCH LASSIE. Large. 6 for 69c; 12 for \$1.14; 25 for \$2.15; 100 for \$7.49.

B7200X—2 each of the Parrots shown here, plus Sundew, 12 bulbs in all for only \$1.39, postpaid.

DOUBLE PEONY

These are not peonies, nor double tulips, but peony-flowered tulips with stems 2 feet long and blooms big as peonies and very fragrant. They are entirely different from, and far superior to, the old, squatty, short-stemmed, double early tulips. No comparison.

B6034—EROS. 3 for 40c; 6 for 69c; 12 for \$1.14, postpaid.

B6042—SNOW PRINCE. 3 for 50c; 6 for 89c; 12 for \$1.49, postpaid.

REMBRANDT TULIPS

AMERICAN FLAG

B6350—One of the newest and most showy of the Rembrandts. People who visit our show grounds always are attracted by it. It is bright red, striped and flaked with white. A solid bed of these is startlingly beautiful. Have lots of these so can price them to you low: 6 for 72c; 12 for \$1.19; 25 for \$2.25; 100 for \$7.95, postpaid.

B6375—REMBRANDT TULIPS. Our catalog is one of the very few in which you will find these "painted tulips." We always have been strong for them because we know most people like plenty of color, and the Rembrandts certainly have it. They grow like Darwins, are about the same size and shape, but the flowers are striped and flamed, or flaked, with vivid colors. 6 for 89c; 12 for \$1.59; 25 for \$2.79; 100 for \$9.98, postpaid.

BREEDER TULIPS

Longer Stems— Darker Colors

Their colors are deep, rich and bold. And the stems are up to 3 ft. in height. Ideal for back or center of your flower bed: excellent against lighter backgrounds.

NEW! Centifolium Hybrid Lily

B5004—CENTIFOLIUM HYBRID LILY. These are magnificent pure white hybrids just obtained from the West Coast. They are the result of the crossing of a half-dozen or more lilies and far outshine the Regal Lily in every respect. Flowers are immense white trumpets, borne on stems that after several years rise to the height of 6 or 8 feet with

Hybrid Centifolium Lilies grow right outdoors. Hybridizers in Oregon have been doing a wonderful job on lilies for the past 15 to 20 years and the results of their work are just coming on the market.

great clusters of 50 or more blossoms crowning the top. The lily flowers themselves are shaped like broad flaring trumpets, as you can see in the picture, and are pure white in the inside. The reverse of the petals are often pink, emerald green, or brown, making some striking contrasts in color. These lilies are exceedingly hardy and because of their deep root system successfully stand severe drought. Plant 6 inches deep. They are called Lilium Centifolium (Hundred Leaved) because of their abundant rich green foliage. Prices: 49c each; 2 for 89c; 5 for \$1.98, postpaid.

Rosa Multiflora As a Town Hedge

We've had several inquiries from customers wanting to know if Rosa Multiflora hedge can be grown in town. Others have asked if it can be grown successfully in Iowa and bordering states. The answer is "yes" to both questions and here's proof. This picture was taken last spring right here in Shenandoah. The hedge shown is only 2-years-old, yet is big enough to stop youngsters, bicycles and dogs. Although it was not yet in bloom when this photo was taken, the hedge does bear clusters of small white wild roses in spring and little red berries in fall. Doesn't spread and become a nuisance, either. It can be easily trimmed to make a beautiful formal or symmetrical hedge, or it may be left untrimmed to form a natural screen, like the one above. Incidentally, the hedge shown here is setting on top of a 3-foot terrace and never permits a bit of washing.

Chili Sauce by Mrs. Field

- 4 qt. chopped tomatoes
- 1 pt. chopped cucumbers
- 1 pt. chopped onion
- 4 chopped peppers
- 1 tsp. paprika
- 1 tsp. black pepper
- 1 tsp. cloves
- 1 tsp. allspice
- 1 tsp. cinnamon
- 4 tsp. salt
- 3 pt. cider vinegar
- 4 cups sugar

Boil not more than half an hour, as finished product should be almost a liquid. Seal while hot. (We think it's delicious.)

Brags on Our Seeds

"Dear Mrs. Field: I want to thank you for the greatest seeds there are. I already have my garden planted with Field's seeds. My folks used them before I married and I am using them too. They are just wonderful."
—Mrs. Laron Horton, Marsena, Arkansas.

Best Way to Plant Tulips

As most everyone knows, tulips must be planted in the fall. And the best way we have found to plant them is to set them about 6 inches deep and 8 inches apart in ground that's properly prepared. We prepare the ground as follows: Take out about 6 inches of top soil and put it over to one side; mix manure or compost into the ground to a depth of 6 to 8 inches and on this sprinkle superphosphate or bonemeal, and level it off; then set the bulbs out and cover with the 6 inches of top soil originally removed.

By planting this way, you're bound to have big, healthy tulips that will come up evenly and last for years.

Nice, Big Cushion Mum

"Dear Mrs. Field: I am sending a picture of the Cushion Mum I got last spring. My granddaughter is standing beside it. It was so nice. Took four yards and six inches of twine to go around it."—Mrs. John Kidder, Star Rt. 39, St. Marys, W. Virginia.

Free Gifts

Free gifts have always been a policy of ours. We want to make sure our customers receive full value and are completely satisfied. The best ways we know how to do this are to send out the best possible seeds and nursery stock; and, to send along a free gift. You always get a free gift. The bigger the order, the bigger the gift or the more of them. This way we know you customers are always pleased because you get good merchandise at a fair price, plus fair measure and then something a little extra.

Why You Should Fall Plant

Fall planting is becoming more and more popular. We've been preaching it for years and now the state experiment stations are heartily recommending it. Now we won't say that, on the whole, fall planting is better than spring planting, nor will we say that spring planting is better than fall planting. Certain things have to be planted in the spring and are only in our Spring Catalog and other things have to be planted in the fall, and appear only in our Fall Catalog, but many can be planted in either season with equally good results. Fall planting, though, has certain definite advantages and here are a few of them:

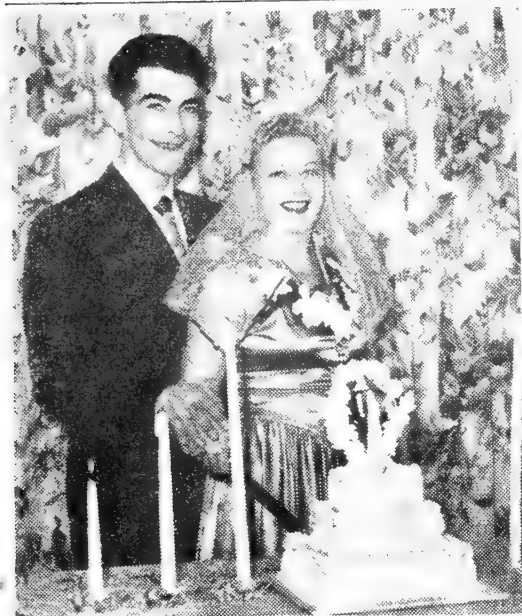

- (1) **Plants get six-months head start.** The roots of fall planted stock do considerable root growing in the late fall and early spring and become established well ahead of spring planted stock.
- (2) **Stand up better.** Because they're established, and since they have had the benefit of early moisture, the plants can take the first hot, dry summer weather better.
- (3) **Often bloom first spring.** Fall planted plants often bloom the first spring, as they are sufficiently established to do so.
- (4) **People can usually put in a better garden.** Because most people are busier in the spring than in fall, they don't put in near as many plants as they would like. In the fall you can do more leisurely, careful, and therefore better planting.

Now, if these advantages don't make a believer out of you, we suggest you try a few plants this fall and see for yourself how successful fall planting is.

"World's Tallest Corn"

"Dear Sirs: I am sending you a picture of several stalks of the 'world's tallest corn.' I got the seed from you before the war. Sure does have big roots. Your 1950 catalog is the best yet."—Kermit W. Garbe, Rt. 2, Knoxville, Iowa.

Bride and Groom

"Dear Mrs. Field: I am sending my wedding picture which was made in February. I never saw your catalog until this spring, but from now on it shall be my favorite. I have already introduced it to two friends who are enjoying it. I just received my first copy of Seed Sense and I can't tell you how much I enjoy it."—Mrs. H. Rysinger, 10214 Calhoun Ave., Chicago, Ill.

Congratulations. Your wedding rose has already been sent.

Best Garden and Flowers Ever

"Dear Field's: We had the best garden and flower beds last year that we ever had. Everything certainly grew fast. The tomatoes, corn, onions, lettuce and beans were very nice. So were the flowers. We are looking forward to a bigger and better garden this year than ever before."—Mr. John North, Douglas, Oklahoma.

Pruning Hybrid Tea Roses

Since hybrid tea roses bloom on the new wood made each year, only three or four of the healthiest canes should be left in the fall. These should be pruned back to about 18 inches above the ground and then hilled up with a mound of soil to about 12 inches. Cover the mound with leaves, evergreen boughs or some other material that will not pack down and become soggy. In the spring, after all signs of frost are past, this covering should be gradually removed and all diseased and dead wood cut off.

In Daddy's Clothes

"Dear Sirs: Along with my seed and bulbs order, I am sending a picture of our son, Gary, age 5. I'll have to agree with you that the clothes fit his daddy better than they do him. I know he'll enjoy his Conglomerate packet as he is very garden minded."—Mrs. Fred Hahn, West Liberty, Iowa.

Transplanting Trees and Shrubs

If you have trees or shrubs to move, don't move them until they are dormant (have lost their leaves). Then you may move them without any trouble if you don't expose the roots to air or sun any more than absolutely necessary.

Proper Care of Glad Bulbs

As soon as the tops of your gladiolus die, dig up the bulbs, cut off the top and wash the dirt away. Dry thoroughly. Then store the bulbs in a cool, dry place that's free from freezing until ready to put out again next spring.

Here's the "Last Word"

"Dear Field's: I am enclosing a shot of my husband and grandson, James Carl Loney. We think he is the last word! We have used your seeds, plants, etc., for years and think they are very fine. Best wishes."—Mrs. C. L. Organ, 1175 S. Irving St., Denver, Colo.

New Customer Well Pleased

"Dear Sirs: I just received my order of mums and shade trees. As this was my first order from you I just want to say my order was perfect. I am pleased with everything. There was more than I expected and the extra gifts were truly a surprise. Thanks for everything. You will be getting more orders from me in the future."—Mrs. W. W. Aycock, Waterloo, Illinois.

Water Your Evergreens Thoroughly

One of the biggest reasons why evergreens die or get badly infested with red spider in the summer is because people don't water them enough. Watering is also very essential during the late fall months. To make sure evergreens get enough water to last them during the winter season, allow water to run on the ground around each evergreen for 30 minutes to an hour about every two weeks. Then just before freezing weather begins give them one last good soaking.

Seeds Bring Joy to Little Girl

"Dear Mrs. Field: I wish you could have been at my house when I opened my order. My little girl saw the flower seed that you sent free. It brought so much joy to her. She has sugar diabetes and gets so much happiness out of flowers. She is just 9 years old and has been sick ever since she was 7. From now on you get all my seed orders."—Ocie Wallace, Rt. 1, Silver Point, Tenn.

A Junior Seedsman

"Dear Sirs: I have received my premium. I like my basketball and goals very much. I have already put up the goals. Last year I sold your seeds and got an air rifle. The rifle is still very good. Here is one of my pictures."—Laverne Lomen, (age 9), Box 134, Lengby, Minn.

Plant Perennials in the Fall

Fall is a good time to plant perennials. Such things as Iris, Peonies, Bleeding Heart, Lily of the Valley, Oriental Poppies, Bluebells, etc., are best planted in the fall, but all sorts do well. The big advantage is that they get an extra six-months growth and get themselves established. Growth in the fall is not as noticeable as in the spring, but don't let that fool you. What's happening is that the plants are growing underneath, into the ground, and getting a good strong start.

Good Luck on First Try

"Dear Field's: This is a picture of me with a big Sugar Lump Watermelon. This was the first time I ever grew watermelons here. Sure were good. This picture also shows a basket of large sweet potatoes. First try at growing them too."—Ruth Moore, Rt. 2, Vestal, N. Y.

How to Mulch Strawberries

Use a non-packing mulch on your strawberries and perennials with leafy crowns on which dirt cannot be piled. They should have a mulch of about 4 to 6 inches of straw or some other similar substance that won't pack down or rot. Don't mulch them until after the ground freezes. Then, after all signs of frost are gone in the spring, they can be uncovered, or, if preferred, some of the mulch can be left on to hold moisture and keep down weeds.

S. S. Rose Bargain

We like to tuck away a rose bargain somewhere in Seed Sense for the benefit of you sharp-eyed readers. That way we know if you're reading all of Seed Sense. And the reason we make it a rose bargain is because we like roses so much ourselves that we want everybody to have plenty of them. So here's a chance to save yourself some money and get some beautiful roses. For only \$1.98 we'll send you 1 Talisman (the most beautiful red and yellow), 1 Pink Radiance and 1 Red Radiance (both favorites in these colors). **Order No. A2250X. Only \$1.98, postpaid.**

Still Want Your Photographs

Sure, we still need and want your snapshots. Couldn't put out a catalog or Seed Sense without them. Then too, we enjoy looking at them because they give us an idea of how our seeds and nursery stock are doing. They also help us to get to know you better. So come on and send us your extra snapshots (not negatives). Send us pictures of your children, your homes and farms, crops, vegetables, flowers, etc. However, please do not send any snapshots that you want back, as we would like to keep all that we receive. Of course we cannot use all we receive but we will give \$1.00. each for those we do use.

Loads of Melons

"Dear Mrs. Field: I am sending you a picture of some of the watermelons raised from Henry Field seed. We had loads and loads of big ones, and they were so good. This is my family with the melons. Thanks for the free gift."—Mrs. Albert Rayner, Chelsea, Iowa.

Free Wedding Roses

Yes, we're still giving away free rose bushes to people sending in a picture of their recent wedding or Golden (50th) wedding anniversary. We do this because we want these people to have a rose as sort of a personal gift from us in honor of the occasion. All you have to do is send a photograph and tell us about it. However, you must send a photograph and it must be either of a recent wedding or of a recent Golden wedding celebration. Can't tell you what kind of rose we'll send but you can be sure it will be a good one. And we'll send it at the proper planting time.

About Pruning Newly Planted Stock

One thing that most people don't do enough of is pruning—especially on newly planted material. Don't be afraid to prune your plants (except evergreens) because there's good reason for doing it. Newly planted stock doesn't have enough roots to take care of a lot of top. In the spring, prune just as soon as you set the plants out. But things planted this fall **should not** be pruned severely until real early next spring. Then use a sharp knife or pruning shears and make good, clean cuts.

Bulbs from Holland to You

All our Tulip, Hyacinth, Daffodil, Crocus and other spring-flowering bulbs come all the way from Holland. You can't beat the big, perfect Dutch bulbs, and we send out only the very best. We suggest you get your orders in as soon as possible so that you get the varieties you want.

Won 42 Ribbons!

Here's a picture of John Musgrove of Stilesville, Indiana, with 42 ribbons and the entomology sweepstakes cup he won at the Indiana State Fair. John says all the produce was grown from Henry Field seeds. We think this certainly is an amazing accomplishment and are proud that we had a part in helping John win these awards.

Giant Hybrid Amaryllis

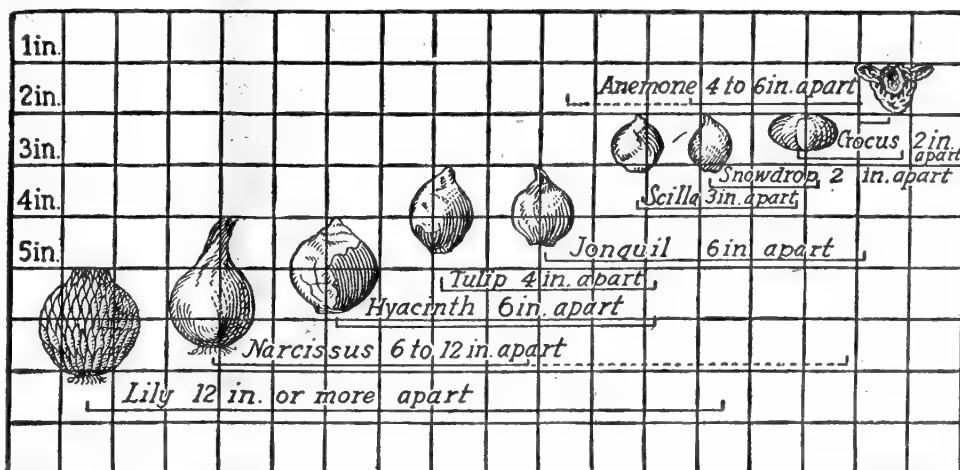

One of the most striking flowers you can grow indoors is the Giant Hybrid Amaryllis. In fact, it's one of the most beautiful and spectacular bulb plants there is. Our hybrids have big, wide-petalled flowers, averaging 4 to 6 inches across, and often have 10 or more blooms on a stem. Coloring is gorgeous. Ranges from almost white to a real dark red with very delicate shadings.

Planting and care is simple. Just put a bulb in a pot with ordinary soil, keeping the neck and about $\frac{1}{3}$ of the bulb protruding. Put in a cool, shaded place. Water sparingly until several inches high. Then bring out of the shade, give plenty of water and keep at a temperature of around 70 degrees. More directions come with each bulb.

No. BG401, Mixed colors only. Prices: 59c each; 2 for \$1.10, postpaid.

More Than Pleased

"Dear Field's: I'm more than pleased with my seed and nursery stock. The order arrived in fine shape. Thanks for the free gifts. The shrubs were well-rooted, green and ready to grow. Thanks for early delivery."—Mrs. Anne Bland, 1141 Ellis, Wichita, Kansas.

Plant Bulbs in the Fall for Spring Beauty

Take care in planting fall bulbs to see that they have every chance of success and play their full part in beautifying the garden. The above Bulb Planting Depth Chart will show you the depth and distance apart to plant bulbs. If the ground has been newly spaded, and is quite loose, the depth should be increased an inch or so to allow for setting, and because of the increased effect of frost heaving on newly turned soil. Also, late planted bulbs which have no opportunity to make roots before the soil freezes, may be set a little deeper to protect them from frost action.

It Was a Fickle Spring

If your plants didn't behave too well this spring, and a lot of people's didn't, it probably was the weather. It was a very dry winter. Not much snow so very little moisture in the ground. The subsoil was extremely dry. Many plants just didn't get enough moisture. That is why so many evergreens burned.

Then the early spring was cold, and still dry. So the plants started slowly, in many cases a full month behind normal. You probably noticed it particularly with your tulips and other bulbs. When they finally peeped up through the soil, they were small. And they had hardly gotten up when we had several days of really hot weather. So tulips with 6 or 8 inch stems started blooming when they should have had 2 foot stems. Some hyacinths bloomed right down inside the leaf cluster. It wasn't the fault of the bulbs; just bad weather conditions.

Fruits and berries got a bad break too. When apples and plums and early strawberries were in flower, heavy rains came. This not only kept the bees from pollinating the flowers, but kept the flowers wet too long. So a lot of fruits and berries had a very poor set of fruit.

And because of the same weather conditions a lot of the deciduous plants (not evergreens) had trouble starting right this spring.

So if your growing things didn't act just right this spring, don't blame the plants, or your nurseryman, whether it was us or someone else. Blame the weather, and hope it doesn't happen again. It probably won't, very soon.

Some Tips About Planting Fall Bulbs

The man who sells us our imported Dutch bulbs is John Res, a fine gentleman who lived in Holland until a few years ago. Has his family over here now, including two beautiful daughters, and they will make us fine citizens.

But what I started out to tell you is that John naturally knows a lot about fall bulbs and how to plant them and take care of them. He was at our place a few weeks ago and asked me to pass on a few tips to you.

First, he said plant your tulips at least two feet away from the house foundation, particularly if you have a heated basement. Heat comes through the basement walls and keeps the ground around the tulips too warm if they are close to the wall. Tulips like to freeze up hard in the winter.

Which brought up another point. If you live in the warmer states, like Texas, your tulips will do better on the north side of your house.

And he said be sure to mulch Daffodils and Hyacinths. And he says don't plant imported Dutch Iris; they freeze off even if mulched. That's why all our Iris are the American varieties grown in America.

And whether or not you have a dry fall, water all your fall bulbs good before the ground freezes up. Of course that is good advice for all nursery stock.

Keep Sending Me Your Letters

I want you to write to me. Henry always enjoyed hearing from you, and so have I. This always has been a friendly business, and we want to keep it that way. Write to me about your planting problems. If I don't know the right answers myself,

Here's a picture of me taken last spring out in one of the Iris test plots behind the Seedhouse. The Iris certainly were pretty then. They're one of my favorite flowers. This particular variety is Ola Kala, a big brilliant golden-yellow, which was selected by the American Iris Society as number one most popular Iris in the country today.

I'll see to it that you hear from one of the men here who does know. "Alfalfa" John Nicolson and Pate Simmons are recognized authorities on field seeds. Irving Steurer is head of our garden and flower seed department. Those of you who live within about 100 miles of Shenandoah may hear his noon-day talks over KFNF. George Rose heads our nursery department. And there are others here, and most of them worked with Henry for years. They love this business just like he did.

Course I like to swap recipes and talk about children and chickens and all the rest. What woman doesn't? So drop us a line. We'll be glad to hear from you.

Our business last Spring was very good. Looks like this is going to be one of the best years the Henry Field Seed & Nursery Co. ever had. I'm mighty proud of that, and thankful.

I, and the others here at the Seedhouse, consider it an expression of confidence in us, and we won't let you down. Thanks again for your orders, and all the wonderful personal letters you have written to me.

I have a neighbor here in Shenandoah who always keeps some parsley growing in a pot in her kitchen window, winter and summer. When she wants a little parsley for potatoes or soup she just breaks off a little and uses it. She also keeps some more in a pot in a basement window, as a spare. When she has picked the plant in her kitchen pretty clean, she takes it to the basement and brings the one from the basement upstairs.

Are You Getting Two Catalogs?

If your family is getting more than one catalog, we would sure appreciate knowing it. We send out a catalog to each name on our list, but sometimes different members of families or different people at the same address order from us and each different name is put down. So, two or more catalogs are sent to the same address, and because of this we sometimes don't have enough copies to go around. If you do have an extra catalog please do us a favor by passing it on to a friend, and then let us know about it on the coupon below. Thanks.

Best Popping Corn You Ever Ate

Nothing like a bowl of good popcorn on those long fall and winter evenings. Popcorn has been a specialty with us for many years. We have tried all of the new kinds as fast as they come out and also have introduced some of the finest of the newer hybrids.

We are very fortunate this fall in having some extra fine lots of popping corn. Every bit of it is guaranteed to pop. We have two kinds, both hybrids, that can't be beat for flavor or quality:

190—Yellow Hybrid South American. Pops big, creamy yellow flakes. 5 lbs. for \$1.00.

191—Hybrid White Hulless. The small white kind. 4 lbs. for \$1.00.

We pay postage on these to zone 4. Beyond add 20c.

P. S. With each order of popping corn, we will enclose a leaflet of popcorn recipes. We've tried them and they're all good.

Nice Looking Shrubs

"Henry Field's: I received the Spreading Yew and all other shrubs I ordered from you OK. All are lovely and nice looking shrubs. Thanks for all the free gifts."—Mrs. Maude Boatman, Box 12, Jacksboro, Texas.

Extra Payment in Nursery

Customers often send in orders that include some express-collect items and some postpaid items. When we ship the order out, these two items sometimes go together in the same package. When this happens the customer has to pay express charges on the whole shipment, not on the express-collect item alone. Naturally this isn't fair. So, to make it right, we always put in a little extra nursery stock, which more than makes up for the extra postage charge. This seems like a good idea, because the customer actually gets a good bargain and we like it because it saves us from making two separate shipments.

Look at Our Big "Tater"

"Dear Sirs: Here is a picture of my four daughters with a 3-pound sweet potato. Have used your Porto Rico variety for two years and like them. Hope I have good luck again this year."—Mrs. Harry Blauvelt, Arapahoe, Nebr.

Our Nursery Guarantee

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock. Fair enough?

If you wonder how we can make such a guarantee, here are some of the reasons:

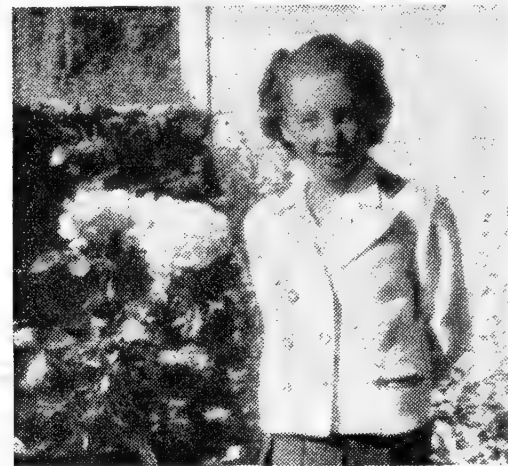

(1) Our nursery stock is all state inspected.

(2) Our nursery stock is free from disease.

(3) Our nursery stock is of the highest quality.

(4) Our nursery stock is true to name.

(5) Our nursery stock is mature, live, ready to grow stock, first class in every way.

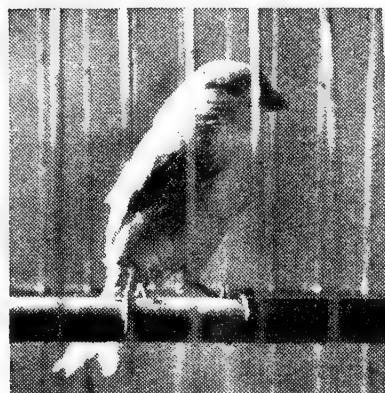

Marvelous Peace Rose

"Dear Sirs: I am sending you a picture of my Peace rose bush, taken last September. It had three roses six inches across, four roses five inches across and two four inches across—all at one time! It was just marvelous. The girl is my little friend, Sharon Bassett."—Mrs. Anna Painter, Box 961, Gooding, Idaho.

"ALFALFA" JOHN SAYS....

"Alfalfa" John
Nicolson

Fall is Brome-planting time. Brome fall planted gets off to a good start. Less weeds to fight—quicker pasture next spring.

Same thing is true of Alfalfa as Brome. Fall plant and roll or culti-pack that seedbed. Limited supply of good, hardy Alfalfa for fall planting. Give us second choice.

Much fall-seeded Timothy is broadcast with no coverage. Sow it early. Likes silt loam and clay loam soils.

The average annual loss due to weeds alone in Iowa is approximately 50 million dollars. Now is the time for that second mowing in your pasture before weed seed is mature.

Kentucky Blue Grass was a short crop this year. Better get your supply of new crop seed early.

Ladino Clover does well fall planted. Get it just as early as you can so roots will get established.

Don't forget Orchard Grass. Very popular.

Sold carloads of Four-Way Clover Mix this year. Special offer good this Fall. Lay it aside for spring and save.

Home-grown Brome is excellent quality. You will be sure to want the southern strains. We have them for you.

Grass Waterways Win the Farmer's Favor

Gullies or waterways—that is the choice many farmers must face today. Yes, your choice should be waterways and they can more than pay their way.

Here are a few suggestions that we think will be helpful to you. Be sure that vegetative ground cover is wide enough to completely cover the waterway and dense enough to prevent water from running over any bare soil. Choose grasses that will lie flat on the ground under moving water and will rise back up when the runoff ceases.

Prepare the ground carefully for seeding. A fine well packed seedbed is best. Seeds should not be covered more than an inch in depth, some less. Apply a few loads of barnyard manure if available.

Lime your seedbed before planting if needed. Commercial fertilizers will also help establish a good stand of grasses and maintain it.

Fall is a fine time to plant seed in waterways as rainfall is not normally as heavy during this time as in the spring of the year. Develop your waterways. They will make your farm a better one.

Good Pastures

Good pastures! These two words bring to your mind a picture of rich, green fields with lots of forage. This is the kind of pasture that makes lots of milk and meat. Dairy cows can fill up in just two hours in such a pasture and deliver full pails of milk for the owners.

Far too much of our pastures are so thin they won't even hide a rabbit. How many good pastures do you see when you travel over the country? 90% of the average farmers time is spent in the cultivated fields! What is to be done with thousands of acres of poor, weed infested, overgrazed and nitrogen starved pastures?

Renew your pastures. Get started this fall. Renovated pastures have proven time and time again they will produce three times as much forage per acre as straight bluegrass alone.

Pasture specialists now recommend plowing instead of disking the old pasture. In many cases, lime and fertilizer should be applied and then a liberal re-seeding of Brome, Alfalfa and Ladino Clover. True, the cost per acre in terms of cash and labor is rather high, but the rewards are big. The second year after a pasture is renewed, a farmer really "cashes in" with four to five times as much feed from a given acreage.

Most pastures are so nitrogen starved that extra nitrogen should be applied even if legumes are included in your new pasture seedings. Remember, more abundant pastures will give you low cost feed and in turn will make possible greater production of low cost milk, meat and other food products.

Ladino Clover Goes to Town

We don't know when we have had a more popular new item than Ladino, the giant type of White Dutch Clover. Ladino makes ideal pasture with Brome and Alfalfa. Fine for poultry feed too. Of all the new introductions the past few years, Ladino leads the parade in acceptance. Very high in protein, recovers quickly after grazing and only one to two pounds of seed needed per acre. Plant Ladino Clover. Everyone is and all like the results.

Try Reed Canary Grass

Reed Canary grass is the best grass known for poorly drained soils. None finer. Once established, it will grow up through a foot or more of water. Does fine on drier soils too according to Iowa State College. This perennial grass will make a heavy sod and grow to a height of four to five feet.

Fall is the time to plant Reed Canary. Use seedbed same as for alfalfa. Use 6 to 8 lbs. per acre. Plant your seed right now, no need to wait for spring.

Special Formula Water-Way Mix

Specially made up for fall planting. A very popular mixture with our customers. Only the best grasses such as Brome, Reed Canary, Alta Fescue, Meadow Fescue, Kentucky Blue Grass and others are included in this formula. Plant anytime using 15 pounds per acre.

Sun-Cured Kentucky Blue Grass

This offer repeated for you customers by popular request. Good quality, new crop Kentucky Blue Grass seed of our own harvest. Not a mixture of cheap grasses, but honest to goodness Kentucky Blue Grass cured right out in the sun and wind to make bright, clean seed. Free of noxious weeds, of course.

Right now—this fall is the time to plant. August and September are fine months to get your young Blue Grass plants started. Ask for lot Sun Cured on your order. 65c per lb.; \$1.85 per 3 lbs.; \$3.00 per 5 lbs.; \$5.75 per 10 lbs.; \$13.75 per 25 lbs. All postpaid prices.

Orchard Grass

Orchard grass is a tall growing, perennial bunch grass and is fine for shade. Starts growing early in the spring. Gets its name for the reason that it is often found growing in the shade of trees.

Orchard grass will stand more heat, drought and lower soil fertility than Timothy. Starts earlier and gives results a month ahead of Timothy. You will find it well adapted to your needs as hay and pasture, grass silage and turf as well. Orchard grass does fine along with legumes like Ladino, Red Clover, Alsike and Alfalfa or Lespedeza. This fine grass has increased in popularity very rapidly the last few years. Plant it alone at rate of 15-20 lbs. per acre or along with other grasses and clovers.

Hybrid Elm Gives Quick Shade

"Dear Sirs: We ordered a Hybrid Elm from you four years ago last fall. We have watched it grow almost daily. We wanted quick shade and we truly have it. We won't need our awnings this summer. It is really amazing how rapidly it has grown and such beautiful leaves! In short—we love this tree."—Mrs. W. L. Durham, Vliets, Kansas.

Like Bush Cherry

"Dear Mrs. Field: Here is a picture of our little grandson, Donald Harmel, age 3, standing beside our Bush Cherry last spring. It is the free gift you sent us with our apple tree order, and was just covered with white flowers. The cherries are wonderful for eating fresh, pies and jellies. We like your seeds and nursery very much and will continue buying every year from you."—Mr. and Mrs. Otto Harmel, Rt. 4, Tomah, Wis.

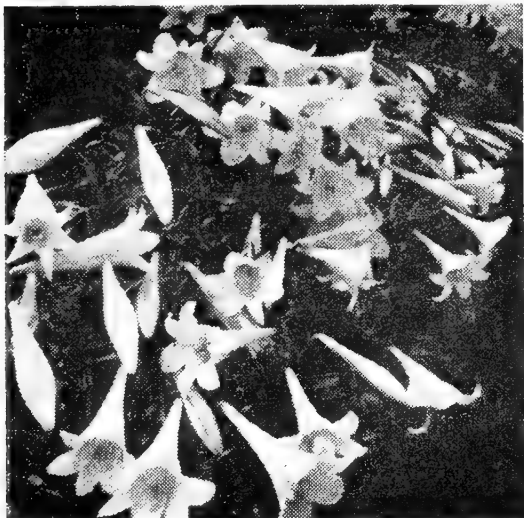

High Yielding Sweet Corn

"Dear Field's: Just a note to tell you that from three rows of Hybrid Stowell's Evergreen Sweet Corn, I canned 44 pints. Also put 30 perfect ears in the locker and still had corn to eat from the ears not quite ready. The rows were 53 ft. long. I've been bragging ever since."—Mrs. Tom Woodward, Waverly, Missouri.

Peaches in Two Years!

"Henry Field Seed & Nursery Co.: Enclosed is a picture of my wife, Ellen, beside one of your peach trees, which I purchased in 1947. It produced a bushel of peaches during 1949."—Sherman F. Fetzner, 408 Pershing Ave., Wheaton, Ill.

An Easter Lily That Blooms Outdoors!

Here's something that is really something—a hardy Easter Lily that blooms outdoors! Something we all want and can grow. It's the Estate Lily—a thing of beauty. As delicate and wonderful as any grown in a greenhouse. Plant in your backyard this fall and you'll have blooms in June year in and year out. You can see from the picture how free-flowering it is. Just like what you pay \$5.00 for at the florists, only this doesn't cost you nearly that much. Because it is so unusual and because we want you folks to have some of these, we're keeping the price way down so everyone can afford them. No. B5010. Price is only 49c each; 2 for 89c; 5 for \$1.98. All postpaid.

How to Protect Your Bulbs

Before setting out your bulbs this fall, put them in a paper sack and sprinkle some Henry Field Bug Dust on them. Then shake the sack gently so as to completely cover the bulbs with the dust. This will protect the bulbs from insects, fungi and even moles.

Get Plants at Right Time

"Dear Sirs: We have used your seeds and plants for two years now and one of the reasons we like them is that you send the plants at just the right planting time."—Mr. and Mrs. Howard Mikesell, Culver, Indiana.

Tickled Pink

"Henry Field Seed and Nursery Co.: We were tickled pink with the success of your Straight Eight Cucumber seeds. It was our first garden and we owe the results to your fine seeds."—Mrs. Harrison Wilcox, 5657 Mahoning Ave., Youngstown, Ohio.

Future Customer from Texas

Mrs. Ray Simon of Rt. 3, Lampasac, Texas, informs us that she enjoys Seed Sense very much, but says she has never seen a picture from Texas in it. And she says, "I want you to know we like your things a lot down here." So, she sent us a picture of her new son and hoped we could find room for it in Seed Sense.

Well, here it is, Mrs. Simon. We think you have a mighty fine son. Hope some day he will be a good Texas customer like so many others we have.

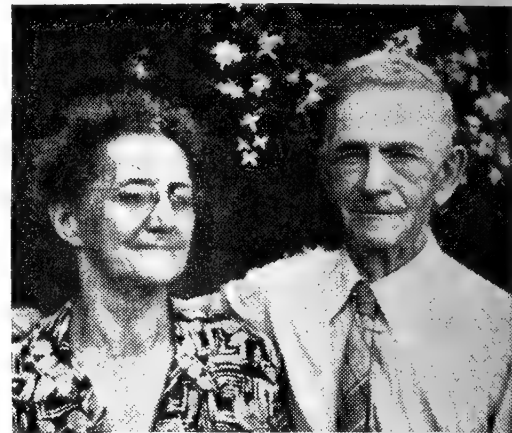

Plant Nursery Stock at Once

The nursery stock we send out is all vigorous, healthy stock and will grow for you. Of course, when you receive it, it's still perishable, since it's a living plant, and must be planted immediately. If at all possible, plant it in its permanent location upon arrival. But if the weather is bad or you can't plant for some other reason, heel it in 'til you can. To do this, merely dig a trench large enough to accommodate all of the roots, place the stock in it, cover the roots with dirt and then water them. This will keep the stock in live growing condition until it can be permanently planted.

Whotta' Crop!

Here is a picture sent in by Mr. and Mrs. George Schultzer of Rt. 3, Remsen, Iowa, of their son, Arnold, hauling some melons and squash. Arnold was 3½ when this photo was taken. Mrs. Schultzer says the melons and squash were grown from Henry Field seeds and that they had so many melons they just couldn't take care of all of them.

Golden Wedding

"Dear Sirs: I am enclosing a picture of our 50th wedding anniversary. We have bought from you for years. My father, also, always bought your seeds. Hope to get a rose bush you offer."—Mr. and Mrs. Fred Monroe, Atwood, Ill.

We are more than glad to send you a rose bush. We know you will enjoy it.

Fall Planting Safe Until Soil Freezes Hard

When freezing temperatures begin, many folks who have not finished their planting wonder how much longer it can safely be done. The answer is, as long as the soil will crumble and can be packed properly about the bulbs and roots of plants.

It makes little difference to plants whether it is November or December as long as they can be properly planted. A crust of frost on the surface of the soil will not interfere with planting. In fact, such things as fruit and shade trees (not evergreens) and other heavy nursery stock can be planted right up to the time when the ground freezes solid.

When to Dig Bulbs

Just before the ground begins to freeze, dig up bulbous plants such as gladiolus, dahlias and cannas. Be careful in digging so that you will not cut or bruise the bulbs. Only the sound ones, free from disease, should be kept. Dry them out thoroughly and store in a cool, dry place.

Our Prices Are Low

We think our prices are so reasonable compared to most everything else that we are proud to have you compare them. We've always believed in fair dealings at fair prices. So look over our merchandise and prices. We think you will have to go pretty far to find better buys.

Calla Lilies for Potting

We have some dandy Calla Lily bulbs that are ideal for potting. They're big, healthy bulbs that will make tall, stately blooms and fine beautiful foliage. Calla Lilies are easy to grow and require only ordinary care. Really are hard to beat for a potted plant. Full directions with each order. Come in three colors.

White—BG411. Yellow—BG412: 40c each; 2 for 69c. Pink—BG417 (a new, different, rare type) 50c each; 2 for 89c. Collection of one each of all three colors—BG445X, only \$1.09. All prices postpaid.

New Dormant Storage Makes Plants Available Anytime

We are delighted to announce that we are now able to offer you fine dormant strawberry plants—available on any date you want them—for fall planting. Just note the date you want them on your order.

These will be dormant plants in just the same condition as they were when placed in storage. They have some green leaves, but not many. (Green leaves mean nothing. The new growth comes from the crown.) The important thing is that they are in just the right condition to get rooted and some growth on before winter.

This certainly is a great step forward from the small fall-dug plants (never ready before last of Oct.) always offered by nurseries up to this time.

Henry Field's STRAWBERRIES

Fall Planting gives strawberries a running start for next spring. Just mulch them well after the ground freezes. Don't use dirt but straw or some litter that will not pack. No leaves. You folks from middle Missouri south can plant on into the winter, depending how far south you are. North of Missouri, strawberries can be planted in October.

Henry Field's HARDY BERRIES

— A Lot of Fruit from a Small Space —

If you want a lot of fruit for little money, want it quick, and without doing much work—grow berries. If you don't have much room, plant them in corners or along the edge of your lot. There's nothing better for hand eating, pies, jellies, jams, and breakfast—and to put some cash in the sugar bowl on the mantel. Go the limit on berries.

Camellia Sasanqua, "Snow on the Mountain"

CAMELLIA—the South's Most Beautiful Plant

Has large glossy green leaves and huge double or single flowers, borne from late Sept. on through Nov.—a time when very few flowers are to be had. It is one of the newest and finest of all broad-leaved evergreens. Similar to Camellia Japonica but faster growing and hardier. Can be grown without protection in latitude of Memphis, Tenn., and much farther north with protection. Must have acid soil. Non-acid soil can be acidified by the addition of our "Acid Soil Conditioner," offered elsewhere on this page.

We do not consider it satisfactory to ship bare root Camellias. Ours are potted in a pre-fertilized media and the pot ball can be planted right with the plant.

A1532—CAMELLIA SASANQUA, SNOW ON THE MOUNTAIN—Large double white, carnation-like flowers borne in profusion. 12 to 18 in. potted, \$1.29 each; 3 for \$3.79, postpaid.

A1531—CAMELLIA SASANQUA, DAWN—Very hardy, semi-double. Ivory white changing to flesh pink at the margins of the petals. 12 to 18 in. potted, \$1.49 each; 3 for \$4.29, pdd.

A1530—CAMELLIA SASANQUA, CLEOPATRA—Large, beautiful cherry-

red flowers. Often double with crinkled petals. 12 to 18 in. potted, \$1.29 each; 3 for \$3.79, postpaid.

A1533—CAMELLIA SASANQUA, VARIEGATED—Large single flowers, white in center with ends of petals deep pink. 12 to 18 in. potted, \$1.29 each; 3 for \$3.79, postpaid.

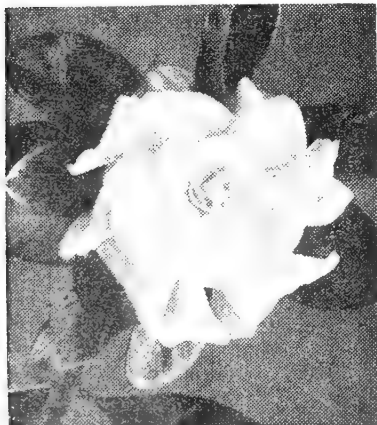

A2390X—CAMELLIA COLLECTION—1 each of above 4 for only \$4.98, pdd. 12 to 18 in. potted, vigorous plants.

NANDINA

A1463—NANDINA domestica—Very popular evergreen shrub for warmer sections. Hardy to zero. Medium height. Blooms early summer. Clusters of dainty white flowers are followed by brilliant scarlet berries among the bronze-red fall leaves. Plant 2 or more for cross pollination and a good set of the beautiful berries. 12 to 18 in. plants potted in pre-fertilized media, ready to keep on growing. 98c each; 2 for \$1.85; 5 for \$4.19, postpaid.

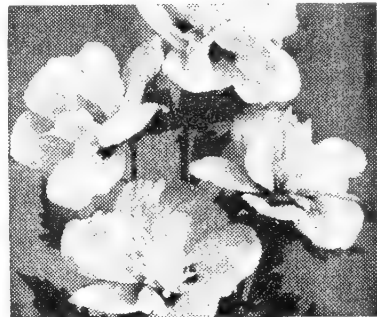

JASMINE

A1474—PRIMROSE JASMINE (JASMINUM PRIMULINUM)—Very fast growing, semi-erect evergreen with Primrose-yellow flowers. Grows most anywhere and is very popular. 12 to 18 in. plants potted in pre-fertilized media—ready to keep right on growing. 59c each; 3 for \$1.59, postpaid.

GARDENIA

A1433—GARDENIA MYSTERY (Best garden variety)—Almost continuous bloom the year around in mild climates and as a house plant farther north. Medium height, glossy, rich green foliage and huge, spectacular, fragrant, snow-white blooms. Plant in partial shade or filtered sunlight. Needs acid soil. If necessary you can acidify your soil with our "Acid Soil Conditioner," offered elsewhere on this page. Hardy to 18 degrees above zero. 12 to 18 in. plants potted in pre-fertilized media—ready to keep right on growing. 98c each.

DOUBLE ALTHEA

(Rose of Sharon)

This is the lovely Rose of Sharon. Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in August and September when flowers are needed. Flowers look like big roses when open. Red—A1401. Pink—A1400. White—A1402. Extra select plants, 49c each; 3 for \$1.29; 5 for \$1.98, pdd. A2351X—Althea Collection. 1 each red, white, pink and blue, \$1.79, pdd. A1404—Althea Celestia. A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 69c each; 3 for \$1.89, pdd.

PYRACANTHA

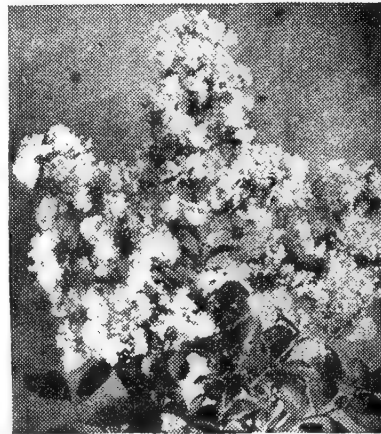

A1477—PYRACANTHA—Evergreen shrub with small bright green foliage and clusters of brilliant orange berries. Beautiful for specimen plants around house or lawn. Makes beautiful impenetrable sheared hedge. Grows only about 5 ft. high. Very hardy type. 10 to 15 in. plants potted in pre-fertilized media, ready to keep right on growing. 98c each; 3 for \$2.79, pdd.

New Carnation-Flowered DWARF POMEGRANATE

A1475—One of the prettiest, cleanest shrubs we have ever seen. Never gets more than 3 to 4 ft. high. Has fresh, bronzy, green leaves and big, double flowers like brilliant scarlet carnations set here and there along the stems. Bears small, showy pomegranates in fall and winter. In colder sections, may lose its leaves briefly in mid-winter. Will stand frost down to 15 degrees above zero. Loves full sun and good soil but does well under dry desert conditions. 89c each; 3 for \$2.59, postpaid.

NURSERY STOCK for

We picked out these items especially for our customers living south of the Iowa-Missouri line. They can plant all these things in the fall. If you live north of that line, don't plant any of these items this

CRAPE MYRTLE

One of the most beautiful and striking of all shrubs. Grows tall and covered with giant clusters of bloom all summer. Perfectly hardy to central Missouri. Everyone south of there should plant this. Farther north tops die down, but if well protected will live over and bloom on new wood.

A1417—Red; A1415—Pink; A1416—Purple; Extra select plants; 49c each, 3 for \$1.29; 5 for \$1.98, postpaid.

ABELIA GRANDIFLORA

A1407—Clean, shiny leaves and white bell-shaped flowers. Blooms all summer. Hardy to zero. Grows well in full sun or partial shade. A medium height shrub. Never grows out of bounds. 98c each; 3 for \$2.49, postpaid.

BLUE MIST SPIREA

A1492—Hardy New Blue Mist—A striking, low-growing shrub from Minnesota that blooms all summer and fall. Never gets over 3½ to 4 ft. tall. Silvery green foliage and spirea-like flowers. One of the very few blue-flowered shrubs. Often dies to the ground in winter in Iowa and north but that won't do any harm. Price 69c each; 2 for \$1.19, postpaid.

AZALEAS

for Brilliant Color

AZALEAS, INDICA—Among most beautiful of all flowering evergreens. Masses of bloom winter through spring. Glossy green foliage. Easy to grow. Need loose, rich, acid soil. (See our "Acid Soil Conditioner" on this page.) Hardy to 18 degrees.

A1521—PRIDE OF MOBILE—Brilliant pink flowers. Hardy, fast growing. Profuse bloomer.

A1520—MME. DOMIQUE—One of the largest. Strawberry-colored blooms, streaked with deep pink and white.

A1522—SALMON (LAWSAL)—Salmon-colored blooms. Best of its color.

Prices of above: 9 to 12 in. plants potted in pre-fertilized media, \$1.29 each, postpaid.

SOUTHERN Fall Planting

fall, excepting as recommended.

Now, if you people living north of Missouri insist on ordering stock not recommended for you, we can't help it. But remember, we told you so.

—Henry Field's

CLIMBING TEA ROSES

Now you can have the big double blooms of the hybrid teas covering your walls and fences. Blooms are same as the bush form.

Climbing Roses cannot support themselves and need to be tied up to the trellis, fence, or other support. When planting around a house, keep plants out 3 ft. from foundation. The ground is too dry any closer than that. Trim to 12 in. from ground when first planted. Takes about 3 yrs. to get a climber well established. Need plenty of water.

Remember—Climbing tea roses probably will not be hardy north of Missouri.

A1070—CLIMBING TALISMAN. Long budded two-toned.

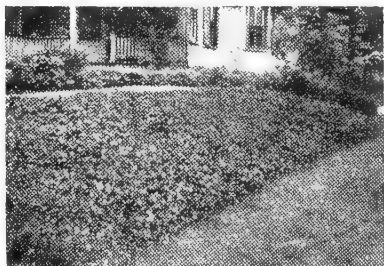

A1055—CLIMBING ETOILE DE HOLLAND. Beautiful tea rose flowers.

A1066—CLIMBING PINK RADIANCE. Clear pink.

A1057—CLIMBING GOLDEN CHARM. Golden yellow. A beauty.

Prices for above: \$1.09 each; 3 for \$2.98; 6 for \$5.29, postpaid.

A2221X—CLIMBING HYBRID TEA ROSE BARGAIN. 1 Climbing Etoile de Holland and 1 Climbing Talisman. Both 2-year, field grown roses for \$1.79, postpaid.

Hardy Strain of ENGLISH IVY (Baltic Ivy)

A1740—Looks like English Ivy but hardier and has smaller, more cut, leaf. Does best in shade. A good indoor pot plant. A wonderful, evergreen vine on north or west side. An ideal ground cover and bank binder (as illustrated) because it stays green the year around and grows in shaded areas where grasses won't. Spreads and covers rapidly, but does not become a pest. Plant 2 ft. apart each way for ground cover. **49c each; 2 for 79c; 10 for \$2.69; 50 for \$12.50; 100 for \$23.00, postpaid.**

GRAFTED PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root. We do. Which is also why we have to ship them express. Pecans are heavy bearers of valuable nuts—will pay your taxes. Also makes excellent shade trees. Plant at least 35 feet apart.

A4116—Giant Mahan. (Shown above.) World's largest and most popular. True paper-shell. Highly productive and beautiful tree. **2-4 ft. Trees \$2.98 each; 3 for \$8.00. Express not prepaid.**

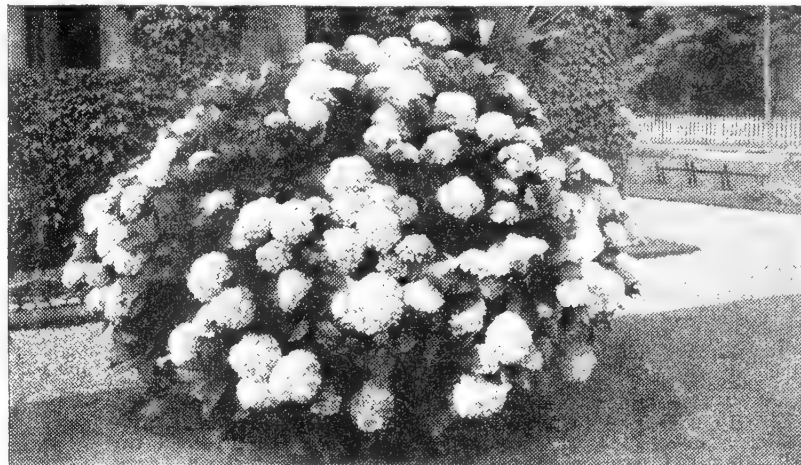

A4117—Stuart. Well suited to all sections and soils. Bears regularly. Large well filled nuts. Big Stuart Pecans grow right here in Shenandoah. **2-4 ft. \$2.50 each; 3 for \$6.00. Express not prepaid.**

THOMAS BLACK WALNUT

A4124—Improved budded black. Hardy anywhere that walnuts will grow. Bears very young, often first year after planting. Nuts thin shelled, easily hulled, kernels fine color and excellent flavor, easy to crack out in halves and quarters. Trees also make fine shade. A mature tree will produce 15 to 40 bushels which sell for \$4.00 or more per bushel. Plant the trees 40 to 50 ft. apart. **2-4 ft. \$1.98 each; 3 for \$5.79. Express not prepaid. Extra long roots make bundle too big for parcel post.**

European MOUNTAIN ASH

A4260—Foliage is a beautiful green. Light, smooth bark. A broad head, very compact, with gorgeous creamy white blossoms in spring, followed by clusters of red berries in later summer and fall. Grows rapidly. **4-5 ft. \$1.59 each; 2 for \$2.98, postpaid.**

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large and on acid soil a beautiful blue. In ordinary soil flowers are pink. To make flowers blue acidify soil by adding our "Acid Soil Conditioner," offered on page 18. To make pink, add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous field grown plants. **89c each; 3 for \$2.49, postpaid.**

EVERBEARING FIG

A3706—Fine new fig. None better for preserves or eating fresh. Ripens big, well flavored figs from July until frost. Most hardy of all figs and often bears the first year. Reliably hardy Arkansas and south. **3-4 ft. 98c each; 3 for \$2.69, postpaid.**

PERSIMMONS

A3719—Sweet Native Persimmon, perfectly hardy anywhere that peaches will grow. Plant 20 ft. apart. One year trees—**79c each; 3 for \$1.98, postpaid.**
A3718—Japanese Persimmon Tane Nashi. Long, bright orange seedless fruit. Fine quality. Deliciously flavored. Hardy anywhere cotton will grow. **2-4 ft. trees—\$1.75 each; 3 for \$4.75, postpaid.**

GRAPE

A1816—Golden Muscat. A miracle fruit. A big, golden California type grape that's hardy in the middle west and south. Big golden yellow, juicy grapes in immense long clusters. So sweet you have to taste them to believe it. **Each 98c; 3 for \$2.59; 5 for \$3.89, postpaid.**

ORIENT PEAR

A3524—Blight Resistant Pear. A midseason variety for planting throughout the middle and Southern states. Fruit is large, often 3 1/2 inches in diameter. Flesh creamy white of good texture, mild flavor. The tree is a vigorous grower, medium stocky. Fine for canning or for eating from the hand. If you are troubled with blight, we particularly recommend this pear. **3 to 4 ft. \$1.19 each; 3 for \$3.45, postpaid.**

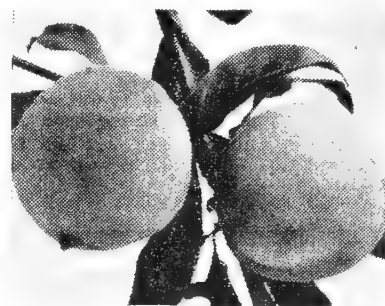

APRICOTS

A3200—CHINESE GOLDEN. Exceedingly hardy. Heavy bearer. **A3211—MOORPARK.** Freestone. Big, juicy fruit.
A3202—EARLY GOLDEN. Freestone. Particularly fine for the South.
PRICES: 3 to 4 ft. \$1.29 each; 3 for \$3.59, ppd. 4 to 5 ft. \$1.75 each; 3 for \$4.95, ppd.

Hunter NECTARINE

Half Peach—Half Plum

A3714—Fruit is fair size, good canned or fresh. Smooth, rich gold fruit of unusual flavor. Its habits are similar to the Peach; therefore culture is the same. Plant with peaches for proper pollination. Vigorous and productive. **3 to 4 ft. \$1.39 each; 3 for \$4.08; 5 for \$6.65, postpaid.**

PEACHES

PEACH PRICES: (For all Peaches except Fuzzless-Berta and Southland.)—**3 to 4 ft. 98c each; 3 for \$2.69; 5 for \$4.35; 10 for \$8.19, postpaid.**

SOUTHLAND

Nematode Resistant

A3425—One of the very finest new peaches. Grown on nematode resistant root stock. Good for all sections. Yellow fleshed freestone. Light red blush. Fine flavor. Can be grown in many sections of south where ordinary peaches cannot because of Nematode. **3-4 ft. trees, \$1.25 each; 3 for \$3.59, postpaid. (No Deluxe grade in this variety.)**

FUZZLESS-BERTA

Field's "Exclusive" Fuzzless Peach

A3106—An absolutely fuzzless peach; flavor is distinctly that of Elberta. Fruit is tender, juicy, firm and freestone. Strong growing. New low price: **3 to 4 ft. size, \$1.10 each; 3 for \$3.19, ppd.**

All 3—3 to 4 ft. trees—for \$2.49, ppd.

DOGWOODS—Pink and White

A4215—Of all the flowering trees, none is more beautiful than the Pink Flowering Dogwood.

This is a **HARDY** Dogwood (except North of Iowa) that should do well for all of you. It does well in partial shade. Is literally smothered with deep pink flowers before the leaves come in spring. **18" to 24" size, root wrapped, \$2.49 each; 2 for \$4.49, postpaid.**

A4216—White Flowering Dogwood—Same as above except flowers are pure white. **18" to 24" size, root wrapped, \$1.49 each; 2 for \$2.79, postpaid.**

MAGNOLIA SOULANGEANA

A4259—This is the popular hardy Magnolia; the one with great, pink, cup-shaped flowers. Seldom gets over 12 feet tall. Plant in a sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. **18 to 24 in. root wrapped plants—\$1.79, postpaid.**

Red FLOWERING PEACH

A4280—Immense, rich red, double flowers cover the plant the same time peaches bloom. Sometimes sets fruit. Good any place peaches will grow. Grows rapidly and often blooms first year. Ideal in shrubbery border for height, or beautiful lawn specimen. **3 to 4 ft., 98c each; 2 for \$1.89, ppd.**

NOW a DeLuxe Grade

of Apple, Pear, Peach, Plum, Cherry

— Offered Only by Henry Field's —

We now make available to you a DeLuxe Grade of fruit trees. These trees will make faster growing, better shaped, quicker bearing trees for you. They are extra-select jumbo-size, the very finest of their kind.

What Our DeLuxe Grade Means

It means that: (1) you get well-branched, heavy rooted, straight-trunked jumbo-size trees (2) roots of trees are specially wrapped in moist moss, which keeps trees in live growing condition (3) proper pruning points painted on branches (4) proper planting depth is indicated on trees (5) complete directions given on best way to handle the trees. All in all, it means you get the best of the biggest, quickest bearing trees.

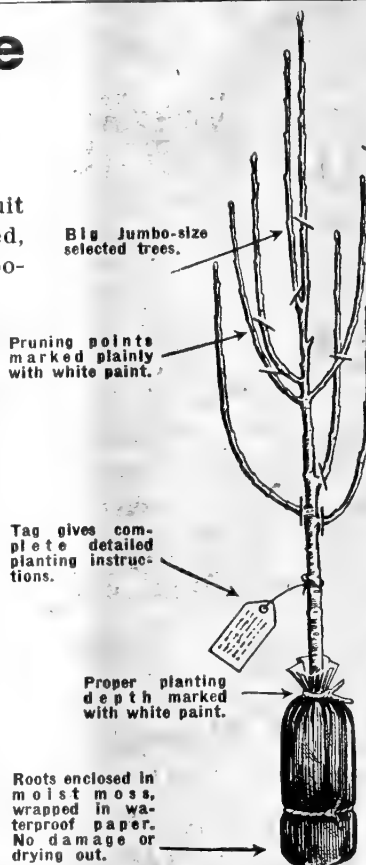

Unconditionally Guaranteed

Because we are so confident you cannot lose one of these trees, we unconditionally guarantee each tree to be in vigorous, growing condition one year from date you receive it. If not, we will replace the tree absolutely free.

Prices

The prices for these trees are listed along with the other fruit tree prices on these two pages.

Because these trees are so big, they must be shipped Express not prepaid. When ordering give nearest Express station.

Nanking Bush Cherry

Fruit Fall Planted GAINS 6 MONTHS

Any fruit listed here can be fall planted. Just leave a mound of dirt around the base of the tree, until spring to prevent heaving. In very cold climates, bury the stock in a trench, top and all, and mound dirt over the trench to shed water. When dug for spring planting, they will be in a beautifully fresh condition.

Remember, it is often the last of October before fruit trees become dormant enough to dig in our nurseries. So don't expect delivery before that time. You can plant fruit trees any time up until the ground freezes too deep to open up.

PEARS

Pears are very heavy bearers, and they're such beautiful trees you can plant them on the lawn.

RHUBARB

A1955 — Famous
Chipman's Canada
Red—This new rhu-
barb was recently
introduced from
Canada. It's the best
of all rhubarbs. The
stalks are large and
completely red from
bottom to top, even
the flesh. Cooking
does not take its
rich color but makes
it more appetizing
for pies and sauce.
Sweetest of all.
Takes less sugar.
You can pull the big
stalks all spring and
summer and almost 'til fall. Seedless. Large No.

Delcon

DELCON—a true Dwarf Apple Tree for only \$1.49

Delcon was originated by the Missouri State Experiment Station at Moun-
tain Grove, Mo., and offered for sale for the first time in the United States
in our March 1948 Seed Sense. Its parentage is Ben Davis, Jonathan and
Delicious—a true dwarf with drooping branches.

Some dwarf apple trees are made by multigrafting, a complicated process
which is more expensive and when you end up you don't have much of a
tree; and they have to sell for five or six dollars. But Delcon is a single-
graft, a true dwarf, a small tree (for easy picking) with full-sized apples,
and we sell it for only \$1.49, postpaid. Perfect for the back yard.

The fruit is fine grained, juicy, and has some of the flavor of both
Delicious and Jonathan. It produces heavy at an early age, seldom needs
thinning, ripens about ten days before Delicious, and keeps well in storage.

You ought to plant it. No. A3015, 2 to 4 ft. size only \$1.49 ea., postpaid.
4 to 5 ft. size only \$1.98 each, postpaid.

Fall Plant Your WINDBREAK and Gain 6 Months

Suggestions for planting windbreak for protection against northwest winds:

Rows 1 and 2: Caragana, Russian Olive, Chinese Elm, Willow, or Mulberry. Plants 4 ft. apart in the row. These two rows are known as snowbreaks. Leave 40 to 60 ft. between them and the next.

Rows 3 and 4: Caragana, Green Ash, Chinese Elm, or American Elm. Plants 6 ft. apart in the row.

Rows 5 and 6: Cottonwood, American Elm, or Chinese Elm. Plants 6 ft. apart in the row.

Rows 7 and 8: Soft Maple, Mulberry, Cottonwood, or American Elm. Plants 6 ft. apart in the row.

Rows 9 and 10: Austrian Pine, Bull Pine, Spruce, Cedar, or Caragana and Russian Olive may be used again. If evergreens, 8 and 10 ft. apart in the row. If trees, 6 ft. apart is the proper spacing.

The trees and shrubs can be planted this fall: leave proper space for the evergreens to be planted in the spring.

First plow a deep furrow, put the seedlings against the straight edge, and then throw the loose dirt back in over the roots. Then plow a furrow on either side of the seedlings, throwing a ridge of dirt up and onto them. This will prevent heaving from frost during the winter. In the spring, pull this dirt away. The first 2 summers, cultivate plenty and keep free from weeds.

Our Special CHINESE ELM WINDBREAK

A2896X—If you want quick, tight windbreak or hedge in a hurry, here's the bargain for you. Some 6 in. Chinese Elm grow to 6 ft. in 1 year, so these big 1½ ft. trees will give you windbreak quick. 75—1 to 1½ ft. trees—postpaid, \$1.69. FREE 1 Red Bud (Judas Tree).

Henry Field's NEW, HARDY HYBRID ELM

Fastest Growing Tree in the Temperate Zone

This amazing new tree combines the permanence and beauty of the American Elm with the rapid growth of the Chinese Elm. Apparently immune to Dutch Elm disease. Grows 8 to 14 feet per year—gives you shade in a hurry.

And it is extra hardy. Keeps right on growing in weather hot and cold, wet or dry. Its leaves are large and dark green; the bark is smooth and a medium grey color. The branches are straight and strong; won't break in a high wind.

NOTICE: Hybrid Elms sometimes start slowly in the spring—maybe sulk for as long as two months, then start growing like mad. It's the nature of the beast, so be patient with it. It soon

will more than make it up. The best time to plant Hybrid Elms, or any other tree, is in the fall when the trees become dormant enough to move (usually late October, when we ship), up until the ground is frozen so solid you can't crack it. Mound a pile of dirt around the base of the tree for the first winter to prevent frost heaving. Rabbits like young Hybrid Elms, so tie fine-mesh wire or heavy paper around the trunk for the first couple of winters.

HEDGES

Spirea Van Houtte Hedge Is Always Beautiful

SPIREA VAN HOUTTE (Bridal Wreath)

For Tall Untrimmed Hedge

A1623—The most beautiful of all untrimmed tall hedges. A perfect border for the backyard, covered with lovely white flowers in early spring with graceful habit of growth. Set 1 to 2½ feet apart. Big 1 to 1½ foot plants. 12 for \$1.56; 25 for \$3.19; 50 for \$5.89; 100 for \$10.98, postpaid.

HARDY CARAGANA

The Drought Lover

A1603—(Siberian Pea Tree). One of the hardiest—drought, hot winds or grasshoppers can't stop it. Pea-green color. Locust-like leaves. Compact grower making a tight hedge, can be trimmed to any height from 1 ft. to 10 ft. 12 to 18 in. size, 25 for \$1.79; 50 for \$3.39; 100 for \$6.50, postpaid.

CHINESE ELM

The Quick-Growing Hedge

A1604—Chinese Elms make a most beautiful, quick growing, inexpensive hedge. Can be kept any height you wish from 1 ft. to 10 ft. Here are the ideal sizes for hedging. Set 12 inches apart.

	12 Ppd.	25 Ppd.	50 Ppd.	100 Ppd.
12-18 in.	\$0.49	\$0.85	\$1.49	\$2.49
18-24 in.69	1.19	2.19	4.19

Hedges get a real start when fall planted. Mound the earth around these plants about 8 inches high. Do not prune until next spring—then prune severely. These are extra heavy plants. All postpaid.

AMOR PRIVET (North)

For the Trimmed Hedge

A1618—Best for trimmed, green glossy hedge. Set 9 to 12 inches apart. 1 to 1½ foot plants. 12 for \$1.68; 25 for \$2.78; 50 for \$5.25; 100 for \$9.98, postpaid.

BARBERRY

The All-Purpose Hedge

A1601—Rich-green foliage, dense habit of growth, beautiful red coloring and red berries in fall plus extra hardness makes this an ideal hedge. Don't need to trim as will make a neat 3-ft. hedge without. Set 12 to 18 inches apart. 1 to 1½ foot plants branched. 12 for \$2.19; 25 for \$4.25; 50 for \$7.75; 100 for \$14.98, postpaid.

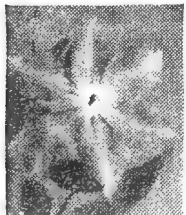

ROSA MULTIFLORA

"The Living Farm Fence"

A1619—Trim it hedge shaped or let it grow as a broad fence. Dense, thorny barrier that stops traffic across your yard or garden, or in the field holds all livestock except occasional breachy sow. Still, a thing of beauty—clusters of small white flowers followed by masses of red berries. Fine for birds and small game refuge, pasture divider, snow stop, fire break, erosion control. Doesn't sucker and spread. We don't ship the darned needle size, but a top grade of 12 to 18 in. 12 for \$4c; 25 for \$1.65; 50 for \$3.25; 100 for \$5.75; and 200 for \$9.98, postpaid. 500 for \$20.95, express not prepaid.

BRIDAL WREATH ▲

A1495—VAN HOUTTE. Always our most popular shrub. Hardy, with beautiful arching habit of growth: the branches just covered with pure white flowers in early spring. Grows every place.

LILAC SPIREA

A1491—SPIREA BIL-LARDI. Here's the spirea with big, pink lilac-shaped blooms borne on the ends of each branch. Blooms all through the summer. A shrub that you should know and plant. Grows 3 to 4 ft.

DAINTY THUNBERGI

First to Bloom

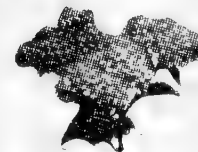

A1494—THUNBERGI. Grows 3 to 4 ft. First spirea to bloom. Covered with dainty white flowers long before the leaves appear. Graceful in shape. Foliage so fine, looks like a giant fern.

ANTHONY WATERER

Dwarf Red Spirea

A1490—Grows 2 ft. America's most popular low growing shrub. Covered all summer with big bright red blooms; compact growing with many branches. An ideal shrub to fill in front of the taller growers or in front of house foundation.

NEW! Dwarf Red Spirea "Ruby Glow"

A1497—(Spirea Japonica Coccinea). Grows just like Anthony Waterer but the flowers are a much brighter crimson and do not fade. Gets about 2 ft. high and almost as broad. Leaves are small and ferny. A beautiful, much needed shrub, for home planting. 59c each, postpaid.

Henry Field's

Fall planted roses do better than spring planted ones. They do not make any top growth in the fall, but they do get a running start next spring because they are already in the ground to take advantage of melting snow and early cold rains. They get a good root growth before hot weather hits, produce healthier plants, more and larger blooms.

IMPORTANT: We can not ship roses to you in the fall until they become dormant, which usually is late October. To fall plant, prune tops to about 18". Plant in usual

HENRY FIELD'S 1950 ROSE BARGAIN

Standard 2-Year Medium Grade
A2242X—Collection: 1 Roslyn, 1 Editor McFarland, 1 Talisman, 1 Konigan Louise, 1 Ami Quinard. All five roses for only \$2.49, ppd.

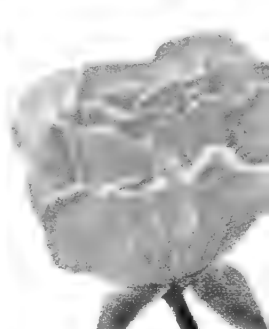

ROSLYN

A1179—Beautiful, golden-yellow. Long pointed buds. Flowers large, slightly fragrant. Vigorous, compact grower.

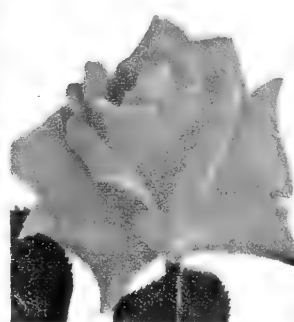

RED RADIANCE

A1176—The hardy, foolproof, brilliant, red radiance will give satisfaction everywhere.

TALISMAN

A1180—A gorgeous blend of gold, scarlet, yellow and orange. Has a beautiful and distinctive shape. Looks like a florist's rose.

HINRICH GAEDE

A1137—Large nasturtium-red flowers with orange-yellow center, glossy bronze foliage. Has a raspberry fragrance.

K. A. VICTORIA

A1147—Most popular white. Clear, glistening white color. Beautifully shaped buds and flowers. Profuse bloomer.

CYNTHIA

A1115—This is one of the really fine deep pinks. Beautifully shaped flower. Very fragrant. Color clear and bright. We all like this one.

ROYAL ROSE COLLECTION

A2245X—1 each of the following two-year, field grown plants: Henrietta, yellow; Poinsettia, scarlet; Field's Giant, red; K. A. Victoria, white; Editor McFarland, pink; Talisman, multi-color—all 6 for only \$3.98, postpaid.

FIELD'S GIANT

A1127—Perfect in its beauty despite its huge size. A profuse bloomer and one of the hardiest roses we know for standing both cold and heat. Our own introduction and offered only by Henry Field's. Propagation rights reserved. Price: \$1.09; 2 for \$1.98, postpaid.

Big, Beautiful PEONIES

Among the Hardest, Longest Lived, Most Satisfactory of All Plants
All Choice Varieties That Sell Regularly at \$1 and Up

These are the finest of the peony world. **Choice Varieties—All Big 3 to 5 Eye Divisions—Labeled.** Huge blooms, fragrant, free-blooming—much improved over the old-fashioned peony. Prices are about 1/2 what is usually charged for these varieties. There has been a shortage of peonies for several years and there are no signs of a let up this year. Take our advice and order early.

Prices of named variety Peonies: 60c each; 3 for \$1.69, postpaid, except where noted.

B1529—KARL ROSENFELD. Brilliant velvety crimson. Compact grower, stately habit, excellent bloomer. Late.

B1514—FRANCES ORTEGAT. Big dark crimson, mid-season peony.

B1512—FELIX CROUSSE. Rose type, late mid-season. Its flowers are dazzling ruby red. Exceptionally fiery, bright and effective.

B1513—FESTIVA MAXIMA. Early snow white with flecks of red on center petals. Immense flowers.

B1511—EDULIS SUPERBA. An early, big, deep pink. One of our favorites.

B1518—GROVER CLEVELAND. Ranks as one of the best peonies produced by Terry, the famous midwest hybridizer. Double dark crimson blooms borne late in season attract a great deal of attention. **79c each; 3 for \$2.19, postpaid.**

B1510—EMMA. Clear bright late pink. Very large and free flowering.

B1517—GENERAL BERTRAND. Popular old-rose pink with a shining salmon center. You will like this one.

A Grand Assortment

They're all big, double, choice varieties—every color of the rainbow. The extras from the choice varieties we grow too many of. Your chance to save. Unlabeled.

B1533—LONGFELLOW. Originated by Mr. Brand up in Minnesota. Longfellow rates as one of the best of the red peonies. A brilliant deep bright red, borne on long stems. Fine for cutting. **98c each; 3 for \$2.79, postpaid.**

B1538—MME. DE VERNEVILLE. Bomb type purest white with carmine flecks. Very early, fragrant.

B1534—MARY BRAND. A fine peony originated in the northern regions. This peony came from Faribault, Minn., and is one of the very best of all dark reds. Striking in size. Lasting cut flowers. Makes a great mass of vivid crimson. **98c each; 3 for \$2.79, postpaid.**

B1540—ROSE FRAGRANS. Immense bomb type deep pink. Very, very fragrant, very large and very late. Flowers after most of the others are gone.

Beautiful Peony Collection

B3155X—1 each of EMMA, FRANCES ORTEGAT, LONGFELLOW, and MME. DE VERNEVILLE for only \$2.79, ppd.

SAVE! Buy Peonies by Color

Lots of folks just like to buy peonies by color and want great big full double flowers. Here they are at real bargain prices. All good varieties—labeled as to color.

B1574—Field's Double Red—45c each; 3 for \$1.29, postpaid.

B1573—Field's Double Pink—45c each; 3 for \$1.29, postpaid.

B1575—Field's Double White—45c each; 3 for \$1.29, ppd.

IMPORTANT "TIP"

Remember — plant the roots so that the little pink buds are exactly

2" below ground level—no more, no less. This is important. Then mound the ground up over the top 4 to 6 inches for the winter.

SARAH BERNHARDT

B1549—This is one of the really large-flowered peonies that should be found in every garden. This midseason variety is deep pink with petals edged a trifle lighter, giving it a pleasing silvery appearance. Fine fragrance. One of the best. **\$1.00 each; 3 for \$2.69, postpaid.**

One blossom . . . a big handful of Sarah Bernhardt.

MEMORIAL DAY COLLECTION

B3156X—\$1.49, Postpaid

Deep Purple BELLFLOWER

B2016—Henry Field's Sister. Helen Field Fischer has grown this one for years and our first plants came from her. It is called Campanula Glomerata Superba—a terrible name for such a pretty plant. Makes clump about 18" across and high and in May stems shoot up bearing clusters of bell-shaped flowers. Lives for years. Hardy as a rock. 45c each; 3 for \$1.19, postpaid.

MISSOURI PRIMROSE

B2131—A low semi-trailing bush that grows only about 6 or 8 in. high but has gorgeous lemon-yellow blooms as large as teacups. Blooms daily all summer. Does well anywhere. Prefers it hot and dry. Henry was delighted with this plant and always grew a lot of them at his place in the Ozarks. In fact, our stock comes from there. 39c each; 3 for 89c; 5 for \$1.29, postpaid.

Hardy BLUE FLAX

B2075—Gray foliage with blue flowers—hundreds of

blooms come on fresh every morning all through the spring and summer. A lovely, flashy plant ideal for borders. Very easy to grow. 39c each; 2 for 65c; 3 for 89c.

VERBENAS

B2265—Hardy. A rose magenta-flowered trailer. A mass of blooms in May. One of the easiest grown perennials. 39c each; 2 for 65c; 3 for 89c, postpaid.

LIATRIS

September Glory B2113—(Blazing Star). Tall spikes 3 to 4 ft. long (in good ground 5 ft.) set with solid tufts of brilliant purple flowers. One of the most showy perennials we have ever seen. Visitors here at the seedhouse this summer loved it. 49c each; 2 for 89c; 3 for \$1.19, postpaid.

Double Yellow BUTTERCUP

B2022—Fine clumps of dark green cut foliage with 18 to 24 in. stems loaded with large golden yellow double Buttercups. Do not confuse this with the low creeping kind that spreads all over the garden. Absolutely hardy. 39c each; 2 for 65c; 3 for 89c, postpaid.
